

## Dane's Desk

Contract Update

05/11/2021

Dear Site Operations Support Services Employees,

The purpose of this memo is to provide you with the latest information on the status and plan for the Site Administrative Support (SAS) contract that each of you currently support. Last Friday DOE requested that WE2 begin reaching out to you with the intent of moving part of the SAS scope and employees into the Site Operations Support contract we currently manage. This memo is the first of several you will be receiving over the next few months as we begin this transition. DOE expects WE2 to have completed transition and begin management of the identified SAS scope on 07/08/2021.

WE2 8(a) JV is an unpopulated joint venture (JV) between Waseyabek Federal Services (a 100% tribally owned company) and E2 Consulting Engineers. Additionally, Amentum Technical Service, LLC is our named large business subcontract partner that completes our team. Over the next several days a Human Resource representative from WE2 will be reaching out to you to begin the transition process. Please be prepared to share current pay rates and health benefit plans so we can ensure a seamless transition for you and your families.

COVID-19 protocols limit our ability to meet with you in large groups, but our plan is to communicate through whatever means are available to introduce our management team, provide further information on our companies, and share our safety and operating philosophy prior to the July contract start date.

We look forward to having you onboard.

Sincerely,

Dane Anderson  
Program Manager, WE2 Support Services 8(a) JV, LLC  
NETL, Site Operations Support Services
